BRIDAL STYLING

All attention for you

Congratulations on your upcoming marriage!

On your wedding day, you not only want to look beautiful, but above all, you want to be able to enjoy the morning. Without rushing, with all the time and attention for you.

With over 20 years of experience in bridal styling, I know by now that it is precisely that calmness and good preparation that make the difference. We look at the complete picture: your hair, make-up, dress, accessories, and above all, what suits you.

This way, together we create a bridal look in which you recognize yourself and which stays beautiful all day long.

First, just getting acquainted

We schedule a personal meeting in advance to get acquainted and discuss your wishes, wedding day, and schedule. I will explain how we work and start thinking with you about what suits you best.

After our conversation, you will receive a personalized quote.

Upon agreement, we will finalize your wedding date.

Trial session

All the time to find your look

We schedule your trial session approximately two months before the wedding. We reserve ample time for this, averaging about 4 hours.

We discuss your wishes and try out different options for hair and make-up. In doing so, we look at the complete picture: your dress, jewelry, and the style of your wedding.

We can also add and try on hairpieces and handmade bridal accessories, so we can immediately see what best complements your bridal look.

We won't stop until you are happy with the complete picture.

On the day of the wedding

On your wedding day, we come to the location where you are getting ready.

We reserve plenty of time for your hair and make-up, so that the morning remains relaxed.

When you put on your dress, I will help protect your hair if necessary.

Then I will put on your veil and we will do one final check.

And then you are completely ready for the moment you have been looking forward to for so long.

Hairextensions

Just that little bit extra

Do you want more volume, length, or fuller curls in your bridal hairstyle? Then we can add hairextensions for 1 day during the trial session and see immediately what gives the most beautiful result.

We work with hairpieces made of 100% real hair in various colors and quantities, so that they blend beautifully with your own hair and are barely visible.

Eyelashes

Beautiful, soft and natural

For bridal makeup, eyelash clusters can add just that little extra to your look. We work with various lengths and apply them so that they blend beautifully with your own lashes.

No heavy or exaggerated lashes, but a result that makes your eyes speak just a little more, especially when you opt for natural bridal makeup.

An experienced team

For Face & Art, I have been working for years with a trusted network of experienced hair and make-up stylists.

I have been working closely with Roxanne for many years now. We know each other's way of working and share the same calm, personal approach.

Back-upsystem

We keep photos and notes of every trial session. Should your stylist unexpectedly be unavailable, a colleague can take over your styling where possible.

A nice extra reassurance for such an important day.

Guest service

Your guests can also have their hair and/or make-up done by us. You, as the bride, are always the focus, and we schedule ample time for your styling.

For larger groups, we work with an extra stylist where possible, so that the morning remains relaxed.

Handmade bridal accessories

Designed for your bridal look

In our salon, you will find the handmade Face & Art collection, designed and handmade by Linda.

During your trial session, you can try on various accessories directly in your hairstyle. This way, we can immediately see which design and color best complements your bridal look.

Looking for something unique?

A custom-made accessory is also possible, fully tailored to your wishes.

Additional support

Enjoy your wedding day without a care in the world

Would you like just a little extra support on your wedding day? We can stay on location longer after your styling or return later in the day. For example, for a touch-up, during the photoshoot, or around the ceremony.

Touch-up service

Would you like us to come back later in the day to fully touch up your hair and makeup? Then we will schedule a separate time for this.

€150,-

excluding travel expenses at €0,35 cents per km

Stay longer

We can also stay on location after your styling. For example, to provide support during the photoshoot or to touch up your hair and makeup immediately after the ceremony.

€ 85,-

per extra hour

With you all day long

Would you like us to stay with you for a larger part of the wedding day for touch-ups, adjustments to your hairstyle, and support at the various moments of the day?

That is also possible.

Price on request

Shall we create your bridal look?

Then I would love to hear what your plans are. Together, we will create a bridal look in which you recognize yourself and ensure that on the morning of your wedding, you only have to do one thing: enjoy.

Love, Linda
